

12 Watt Frosted LED Ceiling Light

TRANSFORMER INCLUDED, CUT-OUT SIZE 150mm.

Perfect for restricted ceiling space when high output, quality lighting that LED Down Lights provide is required. With a total depth of 20mm, it is ideal in a variety of applications such as: hotels, conference rooms, factories, offices, schools, hospitals, home and domestic.

Made from aluminium with a frosted acrylic diffuser, Lightwell's 12w LED Ceiling light is environmentally friendly as it contains no mercury or glass. Available in both Cool White (6000K) and Warm White (3000K) it suits everyone's requirements. Using 60 x SMD 2835 LED Chips, this unit will produce up to 860 Lumens, equivalent to a 75w incandescent, whilst still only consuming 12w of power. This will enable you to achieve up to 90% savings on your annual lighting costs.

Lightwell's Frosted LED Ceiling Lights comes with a driver included, so simply requires mains (AC85~240V) input voltage. Their beam angle of 120° makes 'dark spots' a thing of the past.

Application

Hotels, Conference Rooms, Factories, Offices, Schools, Hospitals, Home and Domestic.

PRODUCT SPEC

Lumens: 860

Light Colour: 3000K / 6000K

Type: 60 x SMD 2835

Average Life: 50,000 Hours

Equivalent To: 75W

Input Voltage: AC85~265V

Certification: CE, RoHS

Dimmable: Yes

Dimensions: Ø175x20mm

Cut-Out: Ø150mm

Wattage: 12W

Beam angle: 120°
